

Conceptual Mercer Corridor Project

Project Benefits:

- ✓ Provides direct connections between I-5 and Aurora, reducing circuitous routing
- ✓ Reduces system-wide vehicle delay
- ✓ Reduces travel times for most key routes
- ✓ Provides improved and safer pedestrian and bicycle connections
- ✓ Begins to re-connect the grid to better distribute traffic
- ✓ Improves traffic flow and safety at the Mercer/Fairview intersection
- ✓ Supports urban development with better local access
- ✓ Leverages improvements proposed by other projects (AWV)
